

The following items were considered at the Academic Council meeting held Friday, October 9, 2009.

Biology

Requested that they be allowed to renumber BIOL 120 *Human Perspective* to BIOL 100. Having the BIOL 120 course with a course number higher than BIOL 112 has been a source of constant confusion. Renumbering BIOL 120 to BIOL 100 should make the course numbers more logical.

Theatre and English

Each had a new course application: THEA 101 *The Transforming Artist: An Orientation to the Theatre Major* and ENGL 442 *Scientific and Technical Writing*.

It was decided that we should wait to review these two courses until the Council has received the Adams Center approval.

Degree Plan Approval Process:

The group worked to clarify further the process for approving the degree plans.
