

# Psychology (B.S. in Psychology)

---

---

This is a suggested schedule for completing this degree in eight regular semesters. Additional time may be necessary if you are required to complete prerequisite Academic Advance courses, if you repeat courses, or if you average fewer than 16 hours per semester. Due to the large number of electives in this program, there is considerable flexibility in arranging course sequences. (*Note: Some courses have prerequisites and/or are not offered every semester – check the catalog.*)
